The only son of Shigeshigetani in the USA that has a top 1% EMA +10.4, , MS+2.0 and exceeds breed average in CWT (breedplan)! A young sire stacking the "brick building" genetic of Itomoritaka the right way on top of the maternal side. Anyone who has ever had a 42Z son in their pasture will understand. This young sire should be eye candy when fully mature and his DNA already screams special. Breedplan reflects he may have
